ORDINANCE: 1094-17
AN ORDINANCE AMENDING 982-08 THE UTILITIES POLICIES AND PROCEDURES MANUAL
FOR THE VILLAGE OF WILLIAMSBURG

WHEREAS, there is a need to update and codify the procedure used in the operation of the utility services of the Village of Williamsburg,

Therefore, be it ordained by the Village of Williamsburg that the Village of Williamsburg Utilities Policies and Procedures Manual shall be amended so as to add the following under the Utility Billing section:

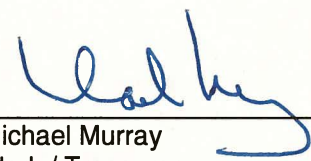

"If payment is two months past due, service will be terminated on the 6th of the month (or the next regular business day). Service terminated due to non-payment will be assessed a fifty dollar (\$50.00) reinstatement fee. All past due balances and the reinstatement fee must be paid in full to have service reinstated to the service address. **Units which receive water service from a provider other than the Village of Williamsburg but receive sewer service and/or garbage service from the Village of Williamsburg will also have these services terminated for non-payment under the same guidelines as noted above if sewer shut-off valve is installed. If the property does not have a sewer shut-off valve installed the following service termination fees will be applied to the property. The first occurrence of service termination for non-payment will be assessed a two hundred and fifty dollars (\$250) reinstatement fee, the second occurrence of service termination fees for non-payment will be assessed a five hundred dollars (\$500) reinstatement fee and the third occurrence of service termination fees for non-payment will be assessed seven hundred and fifty dollars (\$750) reinstatement fee plus all costs associated with installation of the sewer shut-off valve effective January 1, 2018. The Utilities Committee will be responsible for hearing and deciding appeals for the sewer shut-off valve requirements.**"

This change becomes effective January 1, 2018.
